

*We will be more than happy to give your pet their medications, injections etc. but will not be able to help if your pet is*

*Aggressive in any way*

*Bites*

*Scratches*

*Hides and it takes a long time to find them (cats in particular.) If your cat is not aggressive but hides we will have to charge for any additional time that it takes to find them.*

*You must let us know prior to any visit if your pet is going to act aggressive towards us or we will not be able to complete or continue with your service.*

*We can't risk putting ourselves in harms way and your pet will be more stressed out by us trying to give them medications etc.*

*Thank you*

*MJ The Critter Sitter*
